

Job Title: Millwright
Department: FLASH Shared Services
Revision Date: 03/06/2023

Position Overview

Responsibilities include installation, maintenance, and repair of industrial machinery and equipment performed by FLASH Shared Services. This position is part of our traveling construction crew and can expect to travel up to 100% of the time to construction sites as needed.

Essential Job Functions

- Build new industrial and construction machinery
- Repair broken or defective machine parts, using welding and brazing tools
- Align equipment by using specialized tools (e.g. micrometer, plumb bobs)
- Review and follow highly technical and complex machinery manuals
- Transfer machines to several sites, either to install or repair
- Disassemble machine parts when transporting or repairing them, and reassemble the parts
- Collect and store distinct machinery parts
- Visit construction sites to assess potential problems or needs
- Collaborate with construction workers or engineers when using the machines

Requirements

- Proven experience as a Millwright or in a similar role with hands-on experience with construction equipment and machinery
- Flexibility to work overtime when necessary and travel up to 100%
- Ability to report to remote work locations weekly or for several weeks at a time with limited home time
- Excellent coordination, focus, and dedication to following safety protocols
- Experienced in safety-related practices and OSHA/MSHA compliance requirements

Other Skills/Abilities

- Ability to work independently and objectively
- Communication skills, including oral, written, and electronic.
- Pass toxicity test

Lift up to 100 pounds, use their hands to handle, control, or feel, objects, tools, or controls, stand for long periods of time, bend or twist their body, repeat the same movements, kneel, stoop, crouch, or crawl, walk or run for long periods of time
